Center for Academic Excellence
Robinson Technology Center (1st floor)

April 10, 2007

Keynote Speaker

Mr. Robert Ivery
Director, Center for Technology Management
Central Intelligence Agency

Mr. Ivery joined the Central Intelligence Agency in 1986, within the Office of ELINT (OEL). During his early career, Mr Ivery served as an OEL Watch Officer while preparing for another assignment. Upon his return from overseas duty, he served as a project engineer on a wide variety of SIGINT collection, analysis and processing systems. In most cases, Mr. Ivery stayed with his development projects from concept definition through overseas deployment.

Mr. Ivery has held various positions as Branch, Division, Group and Office level manager, Planning Officer in the Directorate of Science and Technology staff and he has attended the National War College. Mr. Ivery was promoted into the Senior Intelligence Service (SIS) in 1998. In addition, he is presently an Agency Hiring Advisor and has provided technical support to Central Intelligence Agency recruiters since 1985. He is currently Director, Center for Technology Management at the Central Intelligence Agency.

Mr. Ivery has a BS degree from Newark College of Engineering, Masters in Engineering Administration from George Washington University and a Masters in National Security Strategy from the National Defense University's National War College.

The Ivery Family has been residents of Loudoun County since 1979. Robert and his wife Brenda of 33 years have two sons, Robert Jr., and Marcus Ivery. Mr. Ivery's hobbies and interests include bowling, landscaping and helping other people.
