

# EKG

**EKG Advanced:** Starting 2012, the Basic and Advanced classes will be combined for 16 weeks instead of being offered separately for 20 weeks. This is the last EKG Advanced class being offered to close out all students who took the EKG Basic class.

**Basic & Advanced EKG Combined:** Centered on performing EKG's and interpreting EKG results through practical skills, demonstrations and hands-on learning. Laboratory assessments skills, which consist of non-invasive procedures, will be performed in a professional manner on classmates. After completion of this class, students will be eligible to apply for EKG certification. The EKG Advanced class focuses on methods of treatment and EKG interpretation. CPR w/AED included; ACLS techniques are also discussed. Emphasis is placed on preparing for the Certification Exam.
