Policy Title: Risk Assessment

Policy Type: Administrative

Policy Number: ADMINISTRATIVE POLICY # 32 – 8 – 6 (2014) Risk Assessment

Approval Date: 05/28/2014 Revised

Responsible Office: Office of Information Technology

Responsible Executive: CIO

Applies to: Office of Information Technology

POLICY STATEMENT

Risk Assessment addresses protecting University information and IT systems commensurate with sensitivity and risk, including system availability needs. This is a central component of the University information security program and allows the University to determine how these factors apply to its IT systems and data.

PURPOSE

The Risk Assessment policy delineates the steps the University must take for each IT system classified as sensitive to:

- Identify potential threats to an IT system and the environment in which it operates;
- Determine the likelihood that threats will materialize;
- Identify and evaluate vulnerabilities; and
- Determine the loss impact if one or more vulnerabilities are exploited by a potential threat.

Note: The Risk Assessment (RA) policy differs from the RA required by the current version of the Project Management Standard (CPM122-nn). This Policy requires an RA based on operational risk, while the Project Management Standard requires an RA based on project risk. Many of the RA techniques described in the Project Management Standard, however, may also be applicable to the RA required by this Policy.

REQUIREMENTS

For each IT system classified as sensitive, the data-owning agency shall:

1. Conduct and document a RA of the IT system as needed, but not less than once every three years.

2. Conduct and document an annual self-assessment to determine the continued validity of the RA.

   Note: In addition, when the University own both sensitive IT systems and IT systems that are exempt from the requirements of this Policy, the University’s RAs must include consideration of the added risk to sensitive IT systems from the exempt IT systems.

3. Prepare a report of each RA that includes, at a minimum, identification of all vulnerabilities discovered during the assessment, and an executive summary, including major findings and risk mitigation recommendations.

VIOLATIONS

Violations of this policy will be addressed in accordance relevant University and Commonwealth of Virginia policies, including University Policy 60.201 and Department of Human Resources Management Policy 1.75. The appropriate level of disciplinary action will be determined on an
individual case basis by the appropriate executive or designee, with sanctions up to or including termination or expulsion depending upon the severity of the offense.

**INTERPRETATION**

The Information Security Officer is responsible for official interpretation of this policy. Questions regarding the application of this policy should be directed to the Office of Information Technology. The Information Security Officer reserves the right to revise or eliminate this policy.

**PUBLICATION**

This policy shall be widely published and distributed to the University community. To ensure timely publication and distribution thereof, the Responsible Office will make every effort to:

1. Communicate the policy in writing, electronic or otherwise, to the University community within 14 days of approval;
2. Submit the policy for inclusion in the online Policy Library within 14 days of approval;
3. Post the policy on the appropriate SharePoint Site and/or Website; and
4. Educate and train all stakeholders and appropriate audiences on the policy’s content, as necessary. Failure to meet the publication requirements does not invalidate this policy.

**REVIEW SCHEDULE**

- Next Scheduled Review: 05/28/2015
- Approval by, date: Office of Information Technology and 05/28/2014
- Revision History:
- Supersedes (previous policy): OIT 62.6 Risk Assessment
