Bio:
Family Restoration Services (FRS) provides an array of services to emotionally disabled youth requiring supportive services to stabilize in their own homes. Family Restoration seeks to restore optimal health to the body, mind, and spirit. In this respect, our mission is to offer youth and families restorative counsel to repair dysfunctional homes, build healthy familial relationships, and to curb negative behaviors and attitudes through fitness and nutritional activities, therapeutic interventions and community partnering.

Park Place School is a non-profit, private school in Norfolk, VA. The school serves low-income or “at-risk” students who struggle academically, socially, and emotionally. The school provides students with high quality instruction in small classes, day treatment support, NILD therapy, and Title 1 resources. We can provide students with an enriched learning experience by also having volunteer interns here to assist. Volunteers fulfill various roles including the following:

- **Lunch or breakfast buddy:** A lunch or breakfast buddy is assigned a specific student to meet with during lunch or breakfast. This buddy builds a relationship with the student throughout the school year by playing academic games, engaging in conversations about everyday life, and, potentially, providing academic support when necessary.

- **After School Tutor:** Park Place students have access to NILD therapy which strengthens cognition and academic performance. After school tutors assist students in complete their NILD homework for about 30 to 45 minutes.

- **One to One Support:** A large majority of Park Place students struggle academically. However, we considered it a wonderful pleasure to offer one to one support with some of our students. One to one support can occur inside and outside the classroom. It can involve academic support or social support in the classroom.

- **Homework Club:** A large number of our students need support with completing assigned homework. Some of their parents work nights and are unable to review homework and listen as their child reads. Homework club provides a space where these students can develop independent study skills with an adult who is there to...

The Mayor's Committee for Persons with Disabilities works to improve the awareness of every person's abilities rather than their disabilities and works to make Virginia Beach the most accessible city in the U.S.

**Mission:** On behalf of all people with disabilities, and in an advisory capacity to the Mayor, our mission is to raise the awareness of the Mayor, City Council, City Administration, and the community at-large of the needs of persons with disabilities. We assist in formulating solutions to meet those needs, and provide advice on issues involving compliance with state and national legislation addressing their needs.

**Bio**

Harbor Point Behavioral Health Center offers hope and healing for youth ages 5 to 18 at the time of admission with several psychiatric diagnoses and/or developmental disabilities. Located in Portsmouth, Va., Harbor Point provides intensive, residential treatment to youth in a comfortable setting that is conducive to healing. Our facility specializes in treating children and adolescents with depression, bipolar, ADHD, and other mental health issues. We even have specific treatment programs for those with intellectual disabilities or those with self-injurious behavior.

I have not worked them directly on practicum. It is likely you would have to contact their HR department and find the appropriate department personnel. You may be required to "volunteer" as your official title, which is ok ONLY if a supervisor is willing to accept the responsibilities outlined in the practicum documentation.

bio
To help families solve problems within the context of their families rather than through placement outside the home. Services are based on the tenant that the family is the most powerful social institution and that families should be supported and maintained whenever possible. Our Intensive In-Home program seeks to develop, support, and empower the family unit by teaching problem solving skills, assisting parents in becoming advocates for themselves, and coordinating available community resources. The program brings services into the home and develops a comprehensive treatment plan to address the family's practical and material difficulties together with their psychological or mental health treatment needs. We are committed to family success!

We are looking for some students to come to our facility to help our teachers reinforce positive behaviors and use tools to help our students develop better social and emotional skills.

Your students would be provided opportunities to use the knowledge and skills they are learning in the classroom to help us create behavior charts individualized for each student, interact with children, staff and parents in order to discuss best ways to re-direct children engaged in inappropriate or unsafe behavior.
