*The Office of Residence Life & Housing is proud to announce the opening of our **P**rogramming **R**esource **C**enter (PRC). This resource center was created to encourage and support the educational mission of the department and University, through providing programming and training resources.*

The PRC is currently housed next to the student computer lab within the Spartan Suites residence hall and is supervised by the PRC Coordinator, Janet Timberlake. The staff that works within the PRC uses the center resources to help our students and staff develop and execute co-curricular programming which supports the University's educational mission.
