---

Dear Friends,

On behalf of the School of Extended Learning (SEL), welcome to Norfolk State University's SEL website. Thank you for the opportunity to introduce you to NSU's newest School, the School of Extended Learning. SEL is an administrative School working with each of the academic and administrative units of the University toward course development and faculty online training. Coursework is offered through the beautiful Virginia Beach Higher Education Center (VBHEC) and also includes distance education, continuing education and certificate programs. SEL is home to the Office of e-Learning located in the LBB Library on the main campus in Norfolk and the VBHEC located in Virginia Beach. Featured programs at the VBHEC include:

- Military Programs
- Continuing Education and
- Workforce Development Classes.

Our motto – Partnering for Life-Long Learning – is indicative of our dedication to continuous learning while serving as a bright lantern on a hill, clearly marking our direction. We are proud of our School and what we have to offer – but only if it means we have met your on-going education needs. Please contact and join us soon!

With warmest regards,

Margaret Massey, Ph.D.

Dean of the School of Extended Learning
