April 26-30, 2010

July 26-30, 2010

Cost: \$1495.00

Learn new skills and increase your earning potential!

There is no such thing as an unemployed locksmith.
An estimated 50,000 full-time locksmiths work in today's marketplace servicing the needs of over 300,000,000 people in the U.S. This represents a tremendous growth opportunity for properly trained, qualified locksmiths.

Professional Locksmiths enjoy the following benefits:

- Recession proof industry
- Flexible schedule with ability to work part-time or full-time
- Average service call is \$65.00
- High demand industry
- Highly specialized skill set
- Time tested employment

Custom Learning Platform

The AHIT locksmith program is designed to challenge students by providing opportunities to advance as far and as fast as their individual abilities and efforts allow them. Each student is given the tools and help needed to succeed and the **flexibility to direct their course content**. Students can choose to do a project as simple as a 6-flat apartment building or tackle a project as complex as the Sears Tower!

Our courses feature **Interactive Instruction, Informational Lectures** and **Hands-on Learning**, all designed to help students acquire the skills, knowledge and confidence to become successful locksmiths.

Course Outline

LOCKSMITHING 1

- Disassemble, Repin and Reassemble Schlage Type Locks
