INSTALLING PRINTER DRIVER TO WORKSTATION

Windows

1. Search box

2. Install NSU Find-Me Print on their local computers

1. After installation is complete, select this printer from the drop down when printing
INSTALLING PRINTER DRIVER ERROR

If you are receiving the following error when trying to install the NSU Find-Me Printer proceed to next steps to install all recommended Microsoft security patches

1. Go to start settings

2. Update & Security

3. Check online for updates
4. Check online for updates from Microsoft Update

- You’re up to date
  Last checked: Yesterday, 7:29 PM

- Check for updates

- Pause updates for 7 days
  Visit Advanced options to change the pause period

- Change active hours
  Currently 7:00 AM to 7:00 PM

- View update history
  See updates installed on your device

- Advanced options
  Additional update controls and settings

5. Let all recommended updates install. Depending on how many patches are needed on the machine it could take some time to complete. You can minimize the window and continue to work. It will run in the background.

Windows Update

*Some settings are managed by your organization
View configured update policies

- Updates available
  Last checked: Today, 9:14 AM

- Feature update to Windows 10, version 20H2

![NSU Find-Me Print]

8. Close print queue window after completes

![Close print queue window after completes]
9. Printer is now available to be selected when printing to the Xerox device.
HOW TO PRINT A DOCUMENT FROM WORKSTATION

The Xerox copiers have a feature called “Find me print”. This feature secures your copy until you go to the copier and tap your card so that nobody else picks up your copies by mistake. It also serves as a cost savings to your department and to the University because you may see that you need to only print certain jobs and not all of the jobs you have sent to the copier. Another feature is that you can also tap your card at any copier on the network and pick up your job.

The first time that you print to the Xerox copier, ID card must be associated with the unit to release the print.

To print a document:

B&W DOCUMENTS (COPIER DEFAULT)

1. File-Print
2. Select find me print on snsprint06 as printer
3. Select Printer Properties to select 2-sided print

COLOR (AVAILABLE TO COLOR COPIERS ONLY)

1. File-Print
2. Select find me print on snsuprnt06 as printer
3. Select Printer Properties
4. Select 2-sided
5. Xerox B&W Print change to off (defaulted to B&W at request of campus)

COLOR PDF PRINTING

1. Print
2. Print using system dialogue
3. Select find me print
4. Preferences
5. Xerox B&W Print change to off (defaulted to B&W at request of campus)
XEROX FLEET COPIER USER INFORMATION

Accessing Copier/Releasing Print Jobs

The first time a user utilizes any of the Xerox copiers, you will need to “associate” your SpartanCard. After the association of the card is retained, you will simply need to tap the card and proceed.

1. Tap SpartanCard on the Xerox Unit
2. A message will indicate that your card is not recognized and ask if you wish to associate the card
3. Click “yes”
4. Enter your username (the same as utilized to log onto your computer)
5. Hit enter
6. Enter your Password (same as utilized to access your computer)
7. Hit Enter
8. You will be asked if you wish to associate this card. Enter “Yes”

To release a print job, select “print release.” If you wish to scan a document select “scan”. Please note that for security purposes this feature only permits scanning to your own NSU email account, which is associated with the card tapped.

Faxing

At this time, the fax address book is unable to be utilized. All faxes are to be entered and transmitted using the manual entry button.

1. Tap SpartanCard on the Xerox unit
2. Select “Access Device
3. From the home screen, select “Fax”
4. Select “Manual Entry”
5. Using the keypad on the Enter Recipient Screen, enter the fax number as follows:
   1. Hit “9” on the keypad
   2. Select “Dial Pause” from the second column
   3. Go back to keypad and complete the number you wish to fax.
      Be sure to include area code, including 757 if sending to a local recipient

      a. The fax number appears on the top line next to the “add” button (for example 9,757xxxxxxx)

      b. After reviewing the accuracy of the fax number, click “Add”

      c. Hit the “send” button located on the upper right hand corner of the screen.
How to Order Supplies or Request Service

Supplies are being monitored on all networked devices and ESI will automatically ship toner when it is needed.

To Place a Service Request:
1. Call 757.497.8088, Option 2
2. Visit www.esi.net, click on drop down menu Support
   Click on Service Request & select one of the 2 options
   *Please have your model & ESI ID#
