

NORFOLK STATE
UNIVERSITY

AI CAN ASSIST. YOU ARE RESPONSIBLE.

Artificial Intelligence is a powerful tool to help draft, refine, and generate ideas — but it does not replace human judgment. Every message we share reflects on you and Norfolk State University.

HUMAN AT THE HELM

AI can help you draft, but a human must review, edit, and approve before anything is shared.

NO PERSON-HOOD

AI is not a person. It cannot be held accountable. You cannot blame the AI.

YOU OWN THE MESSAGE

The final message is yours. You are responsible for its accuracy, tone, and impact.

DELEGATE AUTHORITY. BUT YOU CANNOT DELEGATE RESPONSIBILITY.

You can use AI as a tool, but accountability always stays with you.

USE OUR OFFICIAL LOGO

Always use the official Norfolk State University logo tower with the words "Norfolk State University" under it on all communications and marketing materials.

AI IS YOUR ASSISTANT. YOU ARE THE DECISION MAKER.

BE THOUGHTFUL. BE ACCURATE. BE ACCOUNTABLE.

Protect our students, our community, and our university by putting human judgment at the center of every message.
