

AWARENESS AND TRAINING STANDARD (NSU-AT)

Standard Title: AWARENESS AND TRAINING STANDARD (NSU-AT)
Standard Number: 38-10.2
Standard Reference: COV SEC530 INFORMATION SECURITY STANDARD
Control Family: AWARENESS AND TRAINING (AT)
Approval Date: 10/21/2024
Responsible Office: Office of Information Technology
Responsible Executive: Chief Information Officer

Applies to: All employees, students, visitors, and contractors, in all academic and operational departments and offices at all Norfolk State University locations, and to all university information technology and data, whether owned and operated by the university, or used for university business through contractual arrangements.

STANDARD STATEMENT

All individuals to whom this standard applies shall comply with the Norfolk State University Information Security Standards and protect all IT systems and data to which they have access commensurate with sensitivity and risk. All university information technology and data whether owned and operated by the university, or used for university business through contractual arrangements shall be managed and protected in accordance with the provisions of the Norfolk State University Information Security Standards.

DEFINITIONS

Authorization: The process of verifying that a requested action or service is approved for a specific entity.

AWARENESS AND TRAINING STANDARD (NSU-AT)

Authorize: A decision to grant access, typically automated by evaluating a subject's attributes.

Authorized: A system entity or actor that has been granted the right, permission, or capability to access a system resource.

Availability: The property that data or information is accessible and usable upon demand by an authorized person and that timely, reliable access to data and information services is provided for authorized users.

Computer Network: Two or more computers that can share information, typically connected by cable, data line, or satellite link.

Confidentiality: Protection of systems and data so that unauthorized parties cannot view the data, the property that sensitive information is not disclosed to unauthorized entities, and the assurance that information is not disclosed to unauthorized individuals or processes.

Controlled Unclassified Information (CUI): Information the Federal government owns or has created that needs to be safeguarded and disseminated using only controls consistent with Federal laws, regulations and policies.

Data Custodian: An individual or organization in physical or logical possession of data for Data Owners. Data Custodians are responsible for protecting the data in their possession from unauthorized access, alteration, destruction, or usage and for providing and administering general controls, such as back-up and recovery systems.

Data Owner: An individual, who defines, manages, and controls the use of data and ensures compliance with the Information Security Standards with respect to the data.

Information Security: The policies, standards, guidelines, processes, activities, and actions taken to protect the confidentiality, integrity, and availability of information systems and the data they handle commensurate with sensitivity and risk.

Information Security Incident: means an adverse event or situation, whether intentional or accidental, that poses an enterprise impact or threat to the integrity, availability, or confidentiality of university data or systems or requires reporting based upon regulatory requirements.

Information Technology (IT) System: An interconnected set of IT resources under the same direct management control.

Integrity: Guarding against improper information modification or destruction, including ensuring information non-repudiation and authenticity.

AWARENESS AND TRAINING STANDARD (NSU-AT)

Intellectual Property: Please refer to the BOV POLICY # 35 (2019) INTELLECTUAL PROPERTY POLICY.

Sensitive System: A system that processes any data of which the compromise with respect to confidentiality, integrity, and/or availability could have a material adverse effect on NSU interests, the conduct of NSU programs, or the privacy to which individuals are entitled. Please refer to the 32-02 - Data Classification Policy

Sensitive Information/Data: Any data of which the compromise with respect to confidentiality, integrity, and/or availability could have a material adverse effect on COV interests, the conduct of agency programs, or the privacy to which individuals are entitled. Please refer to the 32-02 - Data Classification Policy

System Administrator: An individual or entity that implements, manages, and/or operates a system at the direction of the System Owner, Data Owner, and/or Data Custodian.

System Owner: An individual or entity responsible for the operation and maintenance of an IT system.

Technological Resources: Technological resources include but are not limited to: computers and terminals, software, printers, networks and equipment, telecommunication equipment and services such as telephones, facsimile machines, modems, basic and long distance calling service, and voicemail; television and radio systems and equipment; computer information systems; and, data files and/or documents managed or maintained by the University which reside on disk, tape or other media. Technology resources also include multimedia equipped classrooms, computer classrooms, computer laboratories, computer offices, and computer furnishings operated or maintained by NSU.

Users: Faculty, staff and students as well as others who have been authorized to use Norfolk State University's technological resources, (e.g., contractors, interns, volunteers, etc.).

CONTACT(S)

The Office of Information Technology (OIT) officially interprets this standard. OIT is responsible for obtaining approval for any revisions as required through the appropriate governance structures. Questions regarding this standard should be directed to OIT Security.

STAKEHOLDER(S)

University Faculty & Staff
Students

Others who have been authorized to use Norfolk State University's technological resources.

AWARENESS AND TRAINING STANDARD (NSU-AT)

AWARENESS AND TRAINING (AT)

NSU-AT-1 LITERACY TRAINING AND AWARENESS

Control:

- a. Provide security and privacy literacy training to system users (including managers, senior executives, and contractors):
 1. As part of initial training for new users and annually thereafter; and
 2. When required by system changes or following organization-defined events;
- b. Employ the following techniques to increase the security and privacy awareness of system users: web-based learning, classroom learning, exercises, simulation, case studies, or gamification;
- c. Update literacy training and awareness content annually and following organization-defined events; and
- d. Incorporate lessons learned from internal or external security incidents or breaches into literacy training and awareness techniques.

Control Enhancements:

(1) LITERACY TRAINING AND AWARENESS | PRACTICAL EXERCISES

Provide practical exercises in literacy training that simulate events and incidents.

(2) LITERACY TRAINING AND AWARENESS | INSIDER THREAT

Provide literacy training on recognizing and reporting potential indicators of insider threat.

(3) LITERACY TRAINING AND AWARENESS | SOCIAL ENGINEERING AND MINING

Provide literacy training on recognizing and reporting potential and actual instances of social engineering and social mining.

(4) LITERACY TRAINING AND AWARENESS | SUSPICIOUS COMMUNICATIONS AND ANOMALOUS SYSTEM BEHAVIOR

Provide literacy training on recognizing suspicious communications and anomalous behavior in organizational systems.

(5) LITERACY TRAINING AND AWARENESS | ADVANCED PERSISTENT THREAT

Provide literacy training on the advanced persistent threat.

(6) LITERACY TRAINING AND AWARENESS | CYBER THREAT ENVIRONMENT

- (a)** Provide literacy training on the cyber threat environment; and
- (b)** Reflect current cyber threat information in system operations.

NSU-AT-2

AWARENESS AND TRAINING STANDARD (NSU-AT)

Control:

- a. Develop an information security training program that meets or exceeds all of the following core requirements:
 1. Separation of Duties;
 2. Identifying and Reporting Security Incidents;
 3. Proper disposal of Data Storage Media;
 4. Proper Use of Encryption;
 5. Access Controls, Secure Passwords;
 6. Working Remotely;
 7. Intellectual Property Rights;
 8. Security of Data;
 9. Phishing and Email;
 10. Social Engineering;
 11. Least Privilege;
 12. Privileged Access;
 13. Insider Threat;
 14. Cloud Services;
 15. Browsing Safely;
 16. Physical Security;
 17. Hacking;
 18. Personal Identifiable Information (PII);
 19. Privacy;
 20. Social Network;
 21. Mobile Devices;
 22. Malware; and
 23. Ethics;
- b. Require documentation of IT system users' acceptance of the agency's security policies after receiving information security training including, but not limited to the following:
 1. Acceptable Use Policy;
 2. Remote Access Policy; and

AWARENESS AND TRAINING STANDARD (NSU-AT)

3. Other Applicable Policies; and
- c. Provide training for all regulatory or contractual requirements that affect IT users.

NSU-AT-3 ROLE-BASED TRAINING

Control:

- a. Provide role-based security and privacy training to personnel with the following roles and responsibilities: System Owner, Data Owner, System Administrator, Data Custodian, Local Administrator, and Agency Head;
 1. Before authorizing access to the system, information, or performing assigned duties, and triannually thereafter; and
 2. When required by system changes;
- b. Update role-based training content as needed no later than once every three years; and
- c. Incorporate lessons learned from internal or external security incidents or breaches into role-based training.

NSU-AT-4 TRAINING RECORDS

Control:

- a. Document and monitor individual system security training activities, including security literacy training and specific role-based security training; and
- b. Retain individual training records for three years as identified in the Library of Virginia Record Retention Schedules.

EDUCATION AND COMPLIANCE

This standard shall be widely published and distributed to the University community. To ensure timely publication and distribution thereof, the Responsible Office will make every effort to:

- Communicate the standard in writing, electronic or otherwise, to the University community within 30 days of approval;
- Post the standard on the appropriate website; and
- Educate and train all stakeholders and appropriate audiences on the standard's content, as necessary. Failure to meet the publication requirements does not invalidate this standard.

The Chief Information Security Officer (or designee) is responsible for official interpretation of this standard. Questions regarding the application of this standard should be directed to the Office of Information Technology. The Chief Information Security Officer reserves the right to revise or eliminate this standard.

Violations of this standard, including without limitation any misuse of data or IT resources may result in the limitation or revocation of access to University IT resources. In addition, failure to

AWARENESS AND TRAINING STANDARD (NSU-AT)

comply with requirements of this standard may result in disciplinary action up to and including termination or expulsion in accordance with relevant University policies, and may violate federal, state, or local laws.

EXCEPTIONS

Exceptions to this standard must be documented in writing and approved by the Vice President for Operations and Chief Strategist, the Chief Information Officer, and the Chief Information Security Officer.

REVIEW SCHEDULE

- Next Scheduled Review: 10/21/2025
- Approval by, date: OIT Standards Development Group, 10/21/2024
- Revision History: 10/21/2024
- Supersedes: SEC530 Controls
