ABET Accreditation Information for the Bachelor of Science in
Optical Engineering

Optical Engineering Program Educational Objectives

The Optical Engineering Program Educational Objectives (PEOs) provide a broad description of the expected accomplishments of program graduates within the first three to five years of their professional careers.

- Devise technical solutions based on sound principles in science and engineering.
- Be effective communicators of technical information within professional settings or to broader audiences.
- Be ethically responsible members of the engineering community and be cognizant of societal impacts of engineering solutions.
- Continue their professional development in business settings or through advanced degree attainment.
