A Pharmacy Technician is an allied health specialist employed within a pharmacy to perform a variety of duties related to preparing and dispensing drugs under the supervision of a registered licensed pharmacist. As of 2001, all Pharmacy Technicians must be certified.

Successful completion of this course prepares the student to become certified through the National/State Pharmacy Technician Certification Board Examinations given throughout the year.

At the end of each course a five-hour comprehensive review for the Board Examinations will be held.

In this course, you will learn:

- Medical and Pharmaceutical Terminology
- Math Calculations
- Pharmacy Law and Ethics
- Aseptic Techniques
- Pharmacology
