

WE SEE THE **FUTURE** IN YOU. MASTER OF HEALTH INFORMATICS (MHI) ONLINE

WHY A DEGREE IN HEALTH INFORMATICS?

- Gain the knowledge, skills and competencies to help improve the health outcomes of all citizens.
- Utilize technology and health data to help problem solve and make sound decisions.

WHY CHOOSE OUR PROGRAM?

- Program Duration (full time only): **Start Date: Fall 2025.**
End Date: Fall 2026.
- Paid internship for 6 weeks of hands-on learning with healthcare organizations.
- Textbooks: Get book stipend every semester to buy textbooks (excludes summer).
- Online Resources: Free access to online resources that will give you the skills training to succeed in the workplace.
- Equipment: Receive free laptop, printer and printer cartridges.
- Streamlined Admission Requirements: Skip the letters of recommendations and GRE.
- Qualified Faculty: Learn from certified online faculty members with experience in the healthcare industry.
- Earn your Degree While You Work: Online delivery can enable you to balance job and other responsibilities with graduate studies.

FINANCIAL AID INFORMATION

DEPARTMENT OF NURSING AND ALLIED HEALTH

ADMISSION REQUIREMENTS:

- **Scan the QR Code**

- **Enrollment in the Master of Health informatics (MID) is very competitive. It is likely that there will be more applicants than available slots. We encourage you to seek funds early to pay for tuition and fees, and to ensure your availability for a 6-week paid internship in summer term A (May-June). The program does not pay for tuition and fees.**
