POLICY STATEMENT

The Affordable Care Act, a federally mandated health care law, requires that all individuals have health insurance coverage. Therefore, to better serve our students, Norfolk State University (NSU) encourages both undergraduate and graduate students to have health insurance coverage. Insurance coverage protects students from expenses incurred as a result of accident, injury, or sickness, and offers some safeguards for a student’s family and the University from medical expenses while they are enrolled.

This policy supports the Affordable Care Act requirement that students are required to purchase health insurance somewhere and any student with an income of over $10,000 is mandated to purchase health insurance or pay a penalty for noncompliance. NSU request all students regardless of their income level to obtain health insurance coverage that will protect them against the increasing cost of medical care not covered by NSU’s Health Services Fee for services provided at the Spartan Health Center.

Students are responsible for all costs incurred that are not covered by the Health Service Fee, including medication, emergency room visits, hospitalizations, ambulance service, and any services outside of NSU’s campus. If a student does not have health insurance, he/she is encouraged to purchase a plan or review options covered under the Affordable Care Act.
