SOLE SOURCE PROCUREMENT POLICY CONTENTS
A sole source procurement is authorized when there is only one source practicably available for
the goods or services required. Competition is not available in a sole source situation. Sole
source justification based solely on a single vendor’s capability to deliver in the least amount of
time is not appropriate because availability alone is not a valid basis for determining a sole source
procurement. The vendor must provide a written quotation.

The department shall complete a Sole Source Justification form and attach it to an eVA
requisition for approval. After review of all available information, the Director or Assistant
Director, of Procurement Services may approve technology or non-technology sole source
procurements. The Chief Information Officer may approve technology sole source procurements.

Notice of sole source procurement shall be posted by Procurement Services on the
Commonwealth’s electronic procurement website (eVA).

The department cannot proceed until the request has been fully approved in advance.

EDUCATION AND COMPLIANCE
The intent of this policy is to educate and train the campus community on sole source procurements
annually. Procurement Services will be responsible for procuring all sole source procurements.
Anyone in violation of this process will be held personally liable to the vendor.

PUBLICATION
This policy shall be widely published or distributed to the University community. To ensure
timely publication thereof, the responsible executive will proceed as follows:

- Communicate the policy in writing, electronically, or otherwise, to the University
  community, including current and prospective students within 14 days of approval.

- Submit the policy for inclusion in the online Policy Library within 14 days of approval.

- Post the policy on the related webpages; and

- Educate and train all stakeholders and appropriate audiences on the policy’s content as
  necessary.
