VENDING INCOME POLICY CONTENTS

Vending machines are coin-operated machines that dispense a variety of products and services. Vendible products include, but are not limited to snacks, beverages, and other items. The sale of food, drink or any product/service that may be lawfully sold by means of a vending machine operated by NSU or a contractor under approved written agreement is considered vending operations. All receipts from campus vending operations operated by a contractor belong to the vendor. The University receives revenue based on a commission schedule. Vending commission checks are received in accordance to the terms and conditions of the contract and shall be made payable to Norfolk State University (NSU) and shall be credited as appropriate. Departments cannot contract with alternate vendors for installation of vending machines. Refunds may be obtained through the contractor by following the instructions posted on the equipment.
